

CARTRIDGE FILTER HOUSING

KETCO

PureGuard

SC-PP

FEATURES

Excellent Chemical Resistance

Constructed from durable polypropylene material with strong resistance to acids, alkalis, and corrosive chemicals.

Compact and Space-Saving Design

Single cartridge configuration makes the housing suitable for installations where space is limited.

Lightweight and Easy Installation

The polypropylene body significantly reduces weight compared to metallic housings, simplifying installation and maintenance.

Cost-Effective Filtration Solution

Provides an economical filtration option for small flow systems while maintaining reliable filtration performance.

Simple Cartridge Replacement

User-friendly design allows quick cartridge change-out with minimal downtime.

Suitable for Low to Moderate Pressure Systems

Ideal for filtration systems operating within typical pressure conditions found in industrial liquid filtration.
